Technical information
Fibre cement is a robust composite material, engineered to create durable, dependable products. As a result, our wide range of building solutions stay as timeless, strong and weather-resistant as when they were first applied.

We believe a beautiful house is the combination of select materials and smart construction techniques blended to create a stunning aesthetic.

“Today’s customers want uniquely designed homes made from durable and low maintenance building materials. James Hardie® products offer a perfect solution.”

John Tee, Architect
High performance, inside and out

James Hardie™ products are designed to stay as beautiful, strong and weather resistant as when your project was built. Our secret for everlasting youth? The James Hardie fibre cement formulation: an invention that’s allowed us to make the most durable fibre cement products on the market.

As the pioneers of seventh generation fibre cement, our unmatched technological innovation makes our products generations ahead of competitors in performance and appearance, delivering ultimate peace of mind.

James Hardie, the pioneers of seventh generation fibre cement
The superior characteristics of our fibre cement products make them the preferred, low maintenance choice of professional builders, architects and homeowners alike. James Hardie® fibre cement is thinner and lighter-weight, yet stronger and easier to handle than most alternative building materials, ensuring your build moves along faster – with less hold ups and complications.

Feel confident in the staying power of your build: our products are non-combustible, water resistant and will never rot or warp.
HardiePlank® cladding is a versatile, low maintenance weatherboard that is stronger than the elements. Installation is quick and easy, offering maximum flexibility with options to fit our boards horizontally, vertically, ship-lapped or open jointed. Available in 21 colours and two textures, the product’s clean lines and outstanding performance stand the test of time and nature’s harshest scrutiny.
“We looked at all the options, including HardiePlank®, and for us it was an easy decision; quick to install, cost effective and beautiful. It just looks and feels perfect.”

Bill Jenkins, homeowner
“The more people see and hear about James Hardie, the more they fall in love. HardiePlank® is universal in its appeal.”

Gary Stevens, Fabulous Fascia Company
“This is a sustainable and marvelous substitute for wood. It’s pre-coloured and the finish truly looks like high grade wood cladding. I’ve used this product for years and have been delighted with the results.”

Sarah Susanka, Designer
“Words cannot describe how HardiePlank® has changed my home. Our house looks great and is a lot more maintenance free - no more painting and scraping.”

Jim Cornett, homeowner
HardiePanel® Weaterboard
Smooth Texture, bespoke colour
The robust, non-combustible, large format facade board engineered to leave a lasting impression.

HardiePanel® cladding is available in a range of 21 colours and a choice of three textures - making it a smart solution for any project.

With clean, crisp lines perfectly suited to large-scale renovations and new builds, our unique ColourPlus™ Technology formulation and 10 year warranty ensure it retains an immaculate appearance for years to come. Alternatively, our PrimePlus™ finish offers endless flexibility to create bespoke colour choices on every design.

Introducing
HardiePanel®
“Choosing to use James Hardie® facade products was an important decision for us, we needed materials that would stand the test of time.”

Kam MacRory, Berkeley Homes
“HardiePanel® helped us to deliver our unique architectural vision. A great solution which provided design flexibility with durability.”

Mr Demeulemeester, Nexity
“We use James Hardie® for many reasons; quality, durability, cost effectiveness and architectural design.”

Gregg McGaha, Morrison Homes
“When you take on board the cost of preparation and maintenance that comes with alternatives, then fibre cement makes a strong competitive case.”

David Tomlinson, Coombs Construction
Installed horizontally, HardieLinea® premium weatherboard casts stunning deep shadow lines in a selection of 10 colours, delivering the ultimate in both aesthetic beauty and protection against the elements.

With its range of elegant, contemporary colours and powerful graphic lines, HardieLinea cladding creates endless possibilities for architects and homeowners alike. And a factory-applied, ColourPlus™ Technology finish will ensure your facade remains beautiful no matter what the weather presents. Specifically formulated to provide a low maintenance durable exterior, the multi-coat baked-on finish supplies the perfect fade-resistant match for your build.
"It's such a deep, chunky board, much less fussy than standard weatherboard, and gives a really clean line and smooth finish that looks very substantial."

Homeowner, Anne Kingdon
“HardieLinea® is a beautiful product, with all the artistic freedom of real wood cladding, but without the maintenance issues.”

Nick Mortimer, Architect
James Hardie®

Trims

Trims is that final touch that completes your home’s design.

Metal trims

MetalTrim™ exterior and interior corner trims are manufactured from high-quality coated aluminium and are available in all 21 colours, giving corners a contemporary appearance.

Metal Trim
Iron Grey

Fibre cement trims

HardieTrim™ NT3® trim (25 mm) is the perfect choice for a bold design statement to complement your HardiePlank® cladding.

Accent Trim™ exterior trim (38 mm) offers the perfect, ultra-chunky robust trim for HardieLinea® cladding.

Both our fibre cement trims are 3.655 m in length, and available in Arctic White, Midnight Black & Sail Cloth with a choice of 90 mm or 140 mm widths.

Fibre cement trims

Accent Trim™ exterior trim (38 mm) offers the perfect, ultra-chunky robust trim for HardieLinea® cladding.

With external corners available for all cladding products, and internal corners available for HardiePlank® and HardiePanel® cladding, you can add a sleek frame to any facade installation.

ColourPlus™ Technology

HardiePanel® Weatherboard
Smooth Texture, mixed colours
Perfected through years of research and development, we created ColourPlus Technology to ensure lasting exterior results on every build.

With a multi-coat, baked-on finish to match your design, the ColourPlus specific formulation is 30% more resistant to UV fade than paint applied on site, minimising maintenance while retaining its timeless, vibrant beauty.

Selected from a palette of classic and contemporary colours, ColourPlus Technology is underpinned by a 10-year warranty which protects against peeling, chipping or cracking.

**Grey Collection**

- **Pearl Grey**: Elegant white-toned neutral inspired from the softest colours in nature, sand and beach-strewn seashells.
- **Grey Slate**: A deep warm grey reminiscent of polished antique slate.
- **Iron Grey**: Strong statement slate inspired by London’s ornate wrought ironwork.
- **Anthracite Grey**: A bold modern grey intensified by blue undertones, perfect for creating strongly defined lines.
- **Midnight Black**: Sleek and velvety dark, a bold modern classic to create maximum impact.
Intriguingly dark for powerful definition yet imbued with a natural woody softness.

Timber Bark
Softly sophisticated, this pale lilac-hued grey evokes classic lines of Kentish beachfront homes.

Light Mist
Gorgeous grey-based blue inspired by enduring seascape shades.

Boothbay Blue

Cool Collection

Khaki Brown
Elements of soft natural timber meld with gentle, grey-green hues.

Evening Blue
Muted gunmetal blue comes alive next to a creamy neutral.

Boothbay Blue
Gorgeous grey-based blue inspired by enduring seascape shades.

Light Mist
Slightly patinated, this pale lilac-hued grey evokes classic lines of Kentish beachfront homes.

Arctic White
Semi-transparent, this pale lilac-hued grey evokes classic lines of Kentish beachfront homes.

Warm Collection

Traditional Red

Warm russet red maple tone bringing depth to the saturated red.

Cheestnut Brown
Charismatic pigmented brown with deep notes of silky chestnut and beautifully aged leather.

Timber Bark
Brass-like dark for powerful definition yet infused with a natural beauty softness.

Khaki Brown
Elements of soft natural timber meld with gentle, grey-green hues.

Evening Blue
Muted gunmetal blue comes alive next to a creamy neutral.

Boothbay Blue
Gorgeous grey-based blue inspired by enduring seascape shades.

Light Mist
Slightly patinated, this pale lilac-hued grey evokes classic lines of Kentish beachfront homes.

Arctic White
Semi-transparent, this pale lilac-hued grey evokes classic lines of Kentish beachfront homes.
Engaging pastel green shot through with tones of greying skies.

Soft Green
Warm and compelling, a softly greying green to evoke Highlands country life.

Heathered Moss
Moody golden-green infused with muted hues to catch the light.

Mountain Sage
This classic dark shade is subtle brown pigments infused with warmth into a clean grey base.

Rich Espresso
Subtle neutral undertones of oyster and seashell converge for a shade of timeless Oxfordshire stone.

Monterey Taupe
Rich hues of undyed linen infused with subtle pearly warmth.

Sail Cloth
Luscious milky pastel inspired by delicate springtime petals.

Monterey Taupe
Soft hues of ox-blood reds infused with golden undertones.

Cobble Stone
Soft grassy, mossy green infused with hints of grey.

Woodland Cream
Contemporary dove-grey neutral with golden undertones.

Cobble Stone
Moody golden greens infused with subtle hues to catch the light.

Woodland Cream
Warm and compelling, a softly greying green to evoke Highlands country life.

Cobble Stone
Bringing pastel green shot through with tones of grey.

Woodland Cream
Luscious milky pastel inspired by delicate springtime petals.
Protect your tiles with HardieBacker® tile backerboard, the UK’s number one engineered tile backerboard for walls and floors.

Renowned for its superior strength, HardieBacker board has a robust and dimensionally stable profile, making a perfect flat tiling surface, while a 10-year guarantee provides lasting peace of mind.

The product’s unique cement fibre formulation means boards are impervious to water damage, ensuring outstanding performance on every job. Easy to cut thanks to its score and snap system, HardieBacker board can be fitted fast with zero fuss.
“We have peace of mind that the tiles are mounted onto a backerboard specifically designed for wet areas that will not decay even if exposed to water.”

Adrian Holt, Ace Kind Ltd
